

FOR IMMEDIATE RELEASE July 27th, 2015

FOND DU LAC AEROMODELERS ANNOUNCE AUGUST EVENT

The annual *Warbirds & Classics over the Midwest* remote control air show will take place in Fond du Lac on Thursday August 13th through Saturday August 15th, 2015, concluding with an open fun-fly on Sunday the 16th. Pilots from all over the United States and Canada sign up in advance to fly at this air show. The club notes that the numbers of spectators attending grow every year.

August 15th is National Model Aviation Day. As part of this celebration money will be collected to support the *Wounded Warriors* Charity. Spectators and pilots are encouraged to give generously to this cause, and WCOM will match donations up to \$500 for the duration of this event.

Last year the air show attracted over 3,000 spectators from the Fond du Lac area. A single \$8 parking pass entitles a vehicle to view the show for all four days. For many families, the air show has become a family fun day tradition. Buses and vans can also take advantage of the \$8.00 admission fee to allow organized groups of kids and adults to enjoy this summer outing. Spectators are encouraged to bring their own chairs. The event does not require a lot of walking.

The remote control air show begins at 9 am on Thursday August 13th, featuring more than 150 pilots and over 350 flying aircraft. To qualify for this event planes must be giant scale models of World War I to modern day warbirds, or models of classic aircraft built before 1960. Planes at this event can have wingspans over nineteen feet.

Spectators will view precise formation flying, flight speeds of up to 200 miles per hour, and simulations of bomb drops as the pilots perform to period music. The Sunday "fun fly" features many types of remote control aircraft, including acrobatic planes in all shapes and sizes.

The air show showcases our community as pilots and spectators from out of town stay at local hotels and patronize businesses. A portion of the proceeds of this event support local schools and organizations with parking assistance and food concession service provided by Fond du Lac High School Chorus Boosters.

Warbirds and Classics food concessions offer a selection of food items available to spectators including brats, burgers, subs, ice cream novelties, and soft drinks. An area for vendors includes specialty items of interest to RC enthusiasts and merchandise for spectators. There will also be a raffle of RC planes and other prizes.

Well-known national guest pilots are also expected to attend the Fond du Lac event. The Fond du Lac Aeromodeler Association is the home field for some nationally recognized celebrity pilots. Carl Bachhuber of Mayville has been featured in many

national hobbyist magazines for his large planes and for his engineering techniques that enable his planes to look and sound remarkably real. A special show feature will be held at noon each day.

The air show is located at Wellnitz Field, N4841 Hickory Road, 2-½ miles south of Highway 41 on Hickory Road. For more information or to view video clips of flying RC aircraft, visit www.midwestwarbirds.com, a website dedicated to the Warbirds and Classics event sponsored by the Fond du Lac Aeromodelers Club. The website also provides a map.

###

MEDIA: While this air show will officially begin on Thursday, August 13th, pilots will begin flying at the field starting on Wednesday, August 12th if you would like to take photographs.

Please contact: Fond du Lac Aeromodelers Club, Roy Zingsheim, Vice-President, Phone: 920-960-833 for more information, photo opportunity details, or media demonstrations.
